DETAILED ACTION

Request for Continued Examination

1. The request filed on November 30, 2005 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/671,868 is acceptable and a RCE has been established. An action on the RCE follows.
2. Claim 1 is pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Mashelkar et al. (US 5,780,578) for the reasons adequately set forth from the office action of June 1, 2005.

Art Unit: 1713

Applicant's arguments filed September 1, 2005 have been fully considered but they are not persuasive. Applicants argue that the amended claim 1 now requires the imprint to be cobalt, and, therefore, claim 1 should be distinguishable from the composition of Mashelkar et al. However, applicants fail to recognize that the argued "cobalt" feature is a feature that is inherently possessed in Mashelkar et al. in view of the substantially identical composition of Mashelkar et al. (col. 9-10, example 7 and 8) and the composition of the polymer composition being claimed. Since the PTO does not have proper means to conduct experiments, the burden of proof is now shifted to applicants to show otherwise. In re Best, 562 F.2d 1252, 195 USPQ 430 (CCPA 1977); In re Fitzgerald, 205 USPQ 594 (CCPA 1980).

Further, applicants must recognize that Claim 1 as written does not include "cobalt" as part of the composition because the claimed composition of claim 1 is being defined by the claimed general formula (1).
